## Updates from City of Houston

### Councilman Martin: FEMA Awards Grant Funding for Additional Lake Houston Spillway Gates

According to Houston City Council Member Dave Martin and U.S. Congressman Dan Crenshaw, the Lake Houston Spillway Improvement Project was named to receive a Hazard Mitigation Grant through the Federal Emergency Management Agency (FEMA) in the amount of \$47,170,953 (Federal Share \$35,378,214.75, Non-Federal Share \$11,792,738.25). This award is pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 404, and 44 CFR Part 206.434.

Congressman Crenshaw announced to Council Member Martin:

*"Today FEMA approved nearly \$3.3 million for Phase 1 of the gates at the Lake Houston Dam. These gates will increase the flow out of Lake Houston significantly. This money will ensure that the final design will not impact downstream residents and will provide the anticipated relief to the Lake Houston area. Increasing the conveyance will have positive impacts for the entire San Jacinto watershed including the East Fork and the West Fork."*

After hearing the news regarding the FEMA Award Council Member Martin had these words to say:

*"The Lake Houston Dam gates were always my number one priority as these additional gates give us the ability to proactively release water from Lake Houston in an expeditious fashion if needed during an emergency. Words cannot do justice to say how pleased I am knowing our gates will be built. It's been 22 months of hard work and persistence. I am forever grateful to Congressman Dan Crenshaw, Governor Greg Abbott, Chief Nim Kidd, Senator Creighton, Representative Huberty, Mayor Sylvester Turner, Stephen Costello, former Chief Recovery Officer Marvin Odum, and Congressman Dan Crenshaw's Field Representative Kaaren Cambio. Without these great leaders this project would've never come to fruition. We are truly blessed."*
